

API-enabled access to Saxo's entire trading infrastructure

Enabling clients to build tailor-made apps on top of Saxo's infrastructure

Facilitating rapid business reconfiguration for clients to create new value streams

Empowering clients with technology to develop device agnostic solutions

Industry trends

New business models are rapidly challenging industries and changing consumer behaviours. Big data, the expanding collaborative economy and the rapid dissemination of information are impacting the way that banks create value for existing customers and reach new markets.

OpenAPI enables rapid business reconfiguration, empowering banks and brokers to create new value chains.

Banks must improve the connectivity of their core assets and capabilities to build communities and ecosystems that facilitate the engagement clients expect. With mobile applications dominating B2C interaction, it is essential for banks to harbour their core assets and capabilities in a cloud-based, mobile solution.

Saxo's response

Saxo's OpenAPI solution decouples our trading infrastructure from user interfaces, allowing our clients to leverage our core capabilities as a capital market facilitator with full integration options. Saxo allows banks to focus on their core banking activities and design their own user experiences.

Saxo fosters an innovative ecosystem around the development of user interfaces. Our comprehensive software development portal helps clients build superior software for their trading businesses. It also allows third parties to develop specialised functionality for Saxo's trading engine.

Unparalleled integration points improve our client's capability to react rapidly to digital change.

OpenAPI access to comprehensive trading infrastructure

- Access to Saxo's complete trading engine from a single API
- 30,000 instruments, positions and orders, account balances and margin details
- Fully documented infrastructure including developer guides and samples
- Comprehensive reference documentation of all APIs
- Simulation development environment available

Secure technology to present a single face and seamless experience to end-clients

- End-user single sign-on to multiple platforms/user interfaces via SAML 2.0
- White Label control of authentication process via federated single sign-on
- Control and monitor API access via OAuth 2.0 application key and secrets

Real-time streaming services

- Prices, quotes, position and order updates are pushed to the client application
- Using Microsoft SignalR technology and WebSockets to optimise performance

Proven concept

- Saxo's next generation multi-asset trading platform, SaxoTraderGO, is powered by OpenAPI
- All future Saxo user interfaces will be based on OpenAPI, which ensures that our clients continue to benefit from our investment in technology and innovation

Saxo Bank Group:

- Founded 1992
- 1450 employees
- 26 offices
- \$680m equity capital
- \$12.4bn customer deposits

The trust and security of working with a licensed European bank

Saxo Markets is the institutional division of Saxo Bank Group. Saxo Markets serves institutional clients through four main hubs in the UK, Denmark, Switzerland and Singapore where most institutional clients are also on-boarded. Each of the licensed entities in the Saxo Bank Group are subject to the supervision of their local regulator.

Saxo Bank A/S is a fully licensed Danish bank under the supervision of Finanstilsynet (the Danish FSA). Saxo Capital Markets UK Limited is regulated by the UK Financial Conduct Authority ("FCA"). Saxo Bank (Switzerland) Ltd. is regulated by the Swiss Financial Market Supervisory Authority ("FINMA") as a bank and securities dealer. Saxo Capital Markets Pte Limited is regulated by the Monetary Authority of Singapore ("MAS") as a capital markets services license holder.

Institutional clients are also on-boarded in Hong Kong, Australia and South Africa. Saxo Capital Markets (HK) Limited is licensed and regulated by Securities & Futures Commission of Hong Kong. Saxo Capital Markets (Australia) Pty Ltd holds an Australian Financial Services License and is regulated by ASIC. Saxo Capital Markets South Africa (PTY) Ltd is regulated by the South Africa Financial Services Board. See all regulatory details at <http://www.markets.saxo/about/>.

Our clients benefit from working with a counterparty operating under strong regulatory framework.
